Screenshot:

Strategy Conditions

Strategy elements	My planned condition
Strategy used	Combined strategy
Market condition required	Consistent
Entry Condition	Uptrend with price confirmation
Confirmation condition	SMA 11, RSI 17 and market price movement
Exit condition	Trend reversal
Stop-loss/ Risk condition, if applicable	Use stop-loss and avoid emotional trading.
Other Important condition	Follow trading discipline and manage risk

Strategy Consistency Summary

Field	Student response
Total Trades reviewed	5
Trades where strategy conditions were followed	3
Trades where strategy conditions were not fully followed	2
Trades with clear strategy deviation	Yes, in few trade
Main type of Deviation	Entry and exit timing
Most common consistent behaviour	Following the market trends.
Most common inconsistent behaviour	Entering without sufficient confirmation and decision.

Strategy Consistency Analysis

Area	Consistent	Inconsistent	Evidence
Market condition selection	Yes		Trades were taken during identifiable price movements
Entry conditions	-	Yes	Entry timing should be checked against SMA 11 and RSI 17
Confirmation	-	Yes	Confirm the trend before entering
Exit approach	Yes	-	Profit was achieved in the reviewed trades, but exit discipline must be maintained
Trading plan adherence	-	Yes	Follow a clear entry, target and stop-loss plan
Execution discipline	-	Yes	Avoid impatience and emotional decisions
Avoiding impulsive decisions	-	Yes	Wait for proper confirmation

Identify Inconsistent Behaviours

Inconsistent behaviour	**Evidence**	**Possible reason**	**How can it be prevented?**
Early Entry	Entering a trade before clear confirmation	Impatience	Wait for SMA 9 and RSI 14 confirmation
Changing Strategy	Switching between trend-based and indicator-based decisions	Conflicting signals	Follow the planned combined strategy

Strategy Improvement Plan

Area to improve	**Current problem**	**Action for future trades**
Emotional Control	Fear of missing out and impatience	Follow a structured trading plan with discipline
Conflicting Signals	SMA and RSI may show different signals	Analyse both indicators before making a decision
Risk Management	Risk of loss due to sudden price changes	Set a proper stop-loss before entering each trade
